Greetings,

On behalf of the citizens of Maine, I would like to help raise awareness to the importance of being safe while enjoying aquatic-related activities.

The recreational water industry is contributing greatly to help provide a safe and enjoyable time in the water. Mainers enjoy water activities in many ways. Beaches, water parks, lakes, home pools and spas that provide refreshment and a great form of exercise.

There are many great organizations that help provide information about water safety. It is important to spread the word of important water safety practices that will help prevent drowning and water-related injuries.

I urge Mainers to enjoy the summer fun, but to follow safety steps, such as constant supervision of children in and around water and the protection of fences, latches, poles and personal floatation devices.

I appreciate the wonderful work of the recreational water industry and Mainers as they help raise awareness to staying safe in the water.

Sincerely,

Paul R. LePage
Governor
